

SALAM CENTENNIAL LECTURE: RUMINATIONS ON SCIENCE AND BEING A SCIENTIST

PROF. JOE NIEMELA
ICTP

From the greatest unsolved problem in classical physics to a celebration of a century of quantum mechanics, the talk will touch on aspects of **science**, **education** and **outreach**, training and **career development**, and highlight examples of **overcoming barriers** to doing science – in a few cases challenging our perception of what it means to *be* a scientist.

MARCH 30TH

10.30 CEST
