

Laboratory Session III on Spectroscopy

Thursday, 11 February 2016 14:00 (2:00)

Content

Groups 2, 4 and 5.

“Cavity ring down spectroscopy combined with Microscopy to increase sensitivity. Determination of the absorption coefficient in pure liquids: water, ethanol.”

Summary

Presenter(s) : HUMBERTO CABRERA MORALES (Instituto Venezolano de Investigaciones Cientificas, Venezuela)

Session Classification : not yet classified
