

Winter College on Optics: Optical Frequency Combs - from multispecies gas sensing to high precision interrogation of atomic and molecular targets | (smr 2811)

Contribution ID : 19

Type : **not specified**

Molecular spectroscopy: basics - part 1

Friday, 19 February 2016 09:00 (1:30)

Content

Summary

Presenter(s) : ERIK KERSTEL (Université Joseph Fourier - FRANCE)

Session Classification : not yet classified
