

Winter College on Optics: Optical Frequency Combs - from multispecies gas sensing to high precision interrogation of atomic and molecular targets | (smr 2811)

Contribution ID : 35

Type : not specified

Precision spectroscopy of molecular hydrogen in search for new physics - part 1

Thursday, 25 February 2016 09:00 (1:30)

Content

Summary

Presenter(s) : WIM UBACHS (Vrije Universiteit - THE NETHERLANDS)

Session Classification : not yet classified
