Conference on Interactions and Topology in Dirac Systems | (smr 2823)

Monday 08 August 2016

- AGH (Giambiagi Lecture Hall) (09:30-17:30)

time	title	presenter
09:30	Topological Physics in HgTe-based Quantum Devices	L. MOLENKAMP
10:15	Universal transport properties of interacting lattice Dirac systems	V. MASTROPIETRO
11:00	Coffee break	
11:30	Contributed talk: Spontaneous breaking of Lorentz symmetry in QED3	L. JANSSEN
11:55	Contributed talk: Josephson current through a quantum dot attached to time-reversal topological superconducting wires	L. ARRACHEA
12:20	Lunch break	
14:30	Dirac Award Ceremony
