8th International Conference on the Exact Renormalization Group - ERG2016 | (smr 2826)

Thursday 22 September 2016

**Parallel Session 5 - Many Body Theory - Leonardo Building - Budinich Lecture Hall
(15:00-18:00)**

time	title	presenter
15:00	High-frequency asymptotics of the vertex function for the functional renormalization group and beyond	TARANTO, Ciro
15:25	Beyond DMFT with the functional renormalization group	VILARDI, Demetrio
15:50	Interplay between magnetism, superconductivity, and orbital order in 5-pocket iron-based superconductors	CLASSEN, Laura
16:15	Coffee break	
16:45	Strongly interacting Fermi gas in two dimension	ENSS, Tilman
17:10	Superconducting quantum criticality in 3D Luttinger semimetals	BOETTCHER, Igor
17:35	Amplitude fluctuations in the Berezinskii-Kosterlitz-Thouless phase	JAKUBCZYK, Pawel
