Conference: What about U? - Effects of Hubbard Interactions and Hund's Coupling in Solids | (smr 2827)

Wednesday 19 October 2016

Day 3 - LB (Budinich Lecture Hall) (09:00-21:30)

45' talks are to be understood as 30' talk + 15' questions

30' talks are to be understood as 20' talk + 10' questions

time	title	presenter
09:00	Nematicity and superconductivity in FeSe: why are they different than in other iron-based materials?	R. FERNANDES
09:45	Complex Fermiology in Fe-based superconductors	K. MAITI
10:30	Coffee break	
11:00	Electronic structure from ARPES	S. BORISENKO
11:45	Thermodynamic evidence of strong correlations	F. HARDY
12:30	Lunch break	
14:30	What can ARPES tell U about electronic correlations in the Fe-based superconductors?	P. RICHARD
15:15	Lifshitz transitions and Hund's metal behavior investigated by ARPES	J. FINK
16:00	Coffee break	
16:30	Round table on Pnictides	
19:30	Conference Dinner
