School on Recent Advances in Analysis of Multivariate Ecological Data: Theory and Practice | (smr 2835)

Tuesday 25 October 2016

- AGH (Giambiagi Lecture Hall) (09:00-17:30)

time	title	presenter
09:00	Measures of similarity and dissimilarity, especially for community composition data	PIERRE LEGENDRE
09:45	Multiple linear regression. R-square, adjusted R-square, AIC, tests of significance	PIERRE LEGENDRE
10:30	Coffee Break	
10:50	Polynomial regression	DANIEL BORCARD
11:40	Partial regression and variation partitioning	DANIEL BORCARD
12:30	Lunch	
14:00	Seminar prof. M. Scardi: Machine learning and neural networks in R for ecological data analysis (Practice)	MICHELE SCARDI
15:30	Practice (Coffee break available 15:30:16:00)
