ICTP-IITM-COLA Targeted Training Activity (TTA): Towards improved monsoon simulations | (smr 2896)

Friday 17 June 2016

Student presentations 15' each (cont'd) - AGH (Giambiagi Lecture Hall) (09:00-10:30)

time	title	presenter
09:00	'Moist processes during breaks of the South Asian summer monsoon in the atmospheric regional climate model HIRHAM5'	FRANZISKA HANF
09:15	'Land surface albedo and its interaction with tropical rainfall in CMIP5 simulations'	XAVIER LEVINE:
09:30	'The role of vortex structure and feedbacks in tropical depression spin up'	VARUN MURTHY
09:45	'Simulation of Intraseasonal oscillation of the Indian summer monsoon in the CMIP5 models and relationship between the ISOs and monsoon depressions'	KATRU NAGALAKSHMI:
10:00	"Seasonal monsoon simulation using GFS model with prescribed SST"	JOSHI, Sneh
