## Workshop on Cosmology with Next Generation Radio Surveys | (smr 2913)

## Monday 20 June 2016

## Monday, 20 June 2016 - Adriatico Guest House - Kastler Lecture Hall (08:30-17:45)

title	presenter
Registration & Administrative Formalities	
Probing the redshifted 21 cm line with current radio telescope: current status	SALEEM ZAROUBI
Cosmology with EMU: the Evolutionary Map of the Universe	RAY NORRIS
Coffee Break	
21cm intensity mapping: current results and future potential	UE-LI PEN
The effect of the error on the visibility mask on 2-point and 4-point statistics of clustering	MANUEL COLAVINCENZO
Lunch Break	
Weak lensing with radio surveys	MICHAEL BROWN
Multi-Wavelength Synergies with Radio Surveys	STEFANO CAMERA
Coffee Break	
Exploring synergies between next-generation cosmology and extra-galactic continuum radio surveys	ISABELLA PRANDONI
Going beyond the SDSS cosmic web: HI filamentary emission as a direct probe of large scale structure	ROBIN KOOISTRA
	Registration & Administrative Formalities  Probing the redshifted 21 cm line with current radio telescope: current status  Cosmology with EMU: the Evolutionary Map of the Universe  Coffee Break  21cm intensity mapping: current results and future potential  The effect of the error on the visibility mask on 2-point and 4-point statistics of clustering  Lunch Break  Weak lensing with radio surveys  Multi-Wavelength Synergies with Radio Surveys  Coffee Break  Exploring synergies between next-generation cosmology and extra-galactic continuum radio surveys  Going beyond the SDSS cosmic web: HI filamentary emission as a direct probe
