18th International Workshop on Computational Physics and Materials Science: Total Energy and Force Methods | (smr 3101)

Thursday 12 January 2017

Session: Electronic excitations - Budinich Lecture Hall (LB) (14:20-16:25)

time	title	presenter
14:20	Introduction to the session	
14:25	Exciton binding and instabilities in quasi-1d Carbon based systems	E. MOLINARI
14:55	Modeling Light-Matter interactions: Quantum Electrodynamics (QED) Chemistry and Materials within TDDFT	A. RUBIO
15:25	Coupled-cluster theory for condensed-phase spectroscopy	T. BERKELBACH
15:55	Coffee Break
