Workshop on Spectroscopy and Dynamics of Photoinduced Electronic Excitations | (smr 3116)

Wednesday 10 May 2017

EXCITON AND CHARGE DYNAMICS I - Budinich Lecture Hall (LB) (09:00-14:00)

time	title	presenter
09:00	Charge transport, transfer and recombination in solution-processed oxide and chalcogenide semiconductors for photoelectrochemical application	KEVIN SIVULA
10:00	Coffee break	
10:30	Optical control and quasiparticle witnessing in strongly correlated electron systems	DANIELE FAUSTI
11:30	Understanding and engineering the nanoparticle corona and its effect on biological interfaces	MICHAEL STRANO
12:30	Lunch break
