Workshop on Spectroscopy and Dynamics of Photoinduced Electronic Excitations | (smr 3116)

Thursday 11 May 2017

ADVANCED SIMULATIONS OF OPTICAL PROPERTIES - Budinich Lecture Hall (LB)
(14:00-17:30)

time	title	presenter
14:00	A multiscale approach to the simulation of the optical properties of complex molecules in solution	STEFANO BARONI
15:00	High-dimensional quantum dynamics of functional organic polymer materials: coherence, localization, and (dis)order	IRENE BURGHARDT
16:00	Coffee break	
16:30	An approach to excitons in layered hybrid perovskites	MIKAËL KEPENEKIAN
