Workshop on Spectroscopy and Dynamics of Photoinduced Electronic Excitations | (smr 3116)

Friday 12 May 2017

EXCITON AND CHARGE DYNAMICS II - Leonardo Building - Budinich Lecture Hall

(09:00-14:00)

time	title	presenter
09:00	Vibronic phenomena for charge and energy transfer in organic optoelectronic materials	ARTEM BAKULIN
10:00	Coffee break	
10:30	Crossover from polarons to Fermi liquids in transition metal oxides	FELICIANO GIUSTINO
11:30	Intermolecular and intramolecular charge transfer states in organic electronics	REINHARD SCHOLZ
12:30	Lunch break
