Workshop on Spectroscopy and Dynamics of Photoinduced Electronic Excitations | (smr 3116)

Friday 12 May 2017

**EXCITED STATES IN MATERIALS AND AT INTERFACES - Leonardo Building - Budinich
Lecture Hall (14:00-17:00)**

time	title	presenter
14:00	Optimally-tuned screened range-separated hybrid functionals: theory and applications to solids and interfaces	LEEOR KRONIK
15:00	Coffee break	
15:30	Band alignment at solid-liquid interfaces and nanoplasmonic photocatalysis	JOHANNES LISCHNER
16:30	Final considerations
