Conference: TMB-NET: Turbulent Mixing and Beyond - Non-Equilibrium Transport across the scales | (smr 3141)

Thursday 17 August 2017

- Leonardo Building - Euler Lecture Hall (10:30-12:30)

time	title	presenter
10:31	Stochastic subgrid models for inertial particles dynamics in a highly turbulent flow	GOROKHOVSKI M
10:55	Localization of convective currents under frozen parametric disorder and eddy transport of passive scalar	GOLDOBIN DS
11:20	A reduced model for salt-finger convection in the small diffusivity ratio limit	XIE JH
11:45	Large eddy simulation of turbulent flow in a sharp meander bend	CAMPOMAGGIORE F
12:05	Turbulent flows in ducts of arbitrary shape	ORLANDI P
