Conference: TMB-NET: Turbulent Mixing and Beyond - Non-Equilibrium Transport across the scales | (smr 3141)

Tuesday 15 August 2017

- Leonardo Building - Euler Lecture Hall (09:00-10:15)

time	title	presenter
09:01	Analytical solutions for the nonlinear regime of the Rayleigh-Taylor and Richtmyer-Meshkov instabilities at arbitrary Atwood number	BOUQUET SE
09:25	Laws of the wall for velocity and temperature in supersonic turbulent boundary layers	VIGDOROVICH II
09:50	Shock compressibility of two-phase liquid-vapor mixture of metals at high temperatures	KHISHCHENKO KV
