Conference: TMB-NET: Turbulent Mixing and Beyond - Non-Equilibrium Transport across the scales | (smr 3141)

Tuesday 15 August 2017

- Leonardo Building - Euler Lecture Hall (14:00-16:20)

time	title	presenter
14:01	On coherent structures in a turbulent mixing layer created downstream of a "Lambda" notch	SUEHIRO E
14:20	On cascade reversal in extended MHD	MILOSHEVICH G
14:40	Linear analysis of magnetohydrodynamic Richtmyer-Meshkov instability in converging geometry	BAKSH A
15:00	Single-particle dispersion in stably stratified turbulence	SUJOVOLSKY NE
15:20	Helicity distribution in a convective vortical flows	EVGRAFOVA AV
15:41	Simulation of turbulence mixing in atmosphere boundary layer and fractal dimension	STRIJHAK S
16:00	Gas flow in unconventional gas reservoirs using space fractional transport models	ALI I
