

ARM ROLE IN THE CO-DESIGN OF THE NEXT GENERATION HPC PLATFORMS

Filippo Spiga

ARM, Cambridge, United Kingdom

E-mail: Filippo.Spiga@arm.com

The aim of this talk is to briefly present Arm and its co-design efforts for the development of the next generation HPC platforms, both inside and outside Europe. We will give a brief overview of the state-of-the-art in compilers, libraries and tools. We will also highlight Arm role in successful European projects like Montblanc.
