Conference on Quantum Dynamics of Disordered Interacting Systems | (smr 3212)

Tuesday 12 June 2018

SESSION CHAIR: ALEXANDER MIRLIN - Kastler Lecture Hall (AGH) (08:55-14:25)

time	title	presenter
09:00	Heat Coulomb blockade of one ballistic channel	FREDERIC PIERRE
09:40	Topology, braiding and disorder in a planar Josephson junction	ADY STERN
10:15	Coffee break	
10:45	Multiterminal Josephsonics of mesoscopic and correlated electrons	ALEX LEVCHENKO
11:15	Higher-order topological insulators and superconductors	PIET BROUWER
11:55	Higher-order bulk-boundary correspondence for topological crystalline phases	LUKA TRIFUNOVIC
12:25	Lunch break
