Conference on Quantum Dynamics of Disordered Interacting Systems | (smr 3212)

Wednesday 13 June 2018

SESSION CHAIR: GUIDO PAGANO - Kastler Lecture Hall (AGH) (14:30-21:30)

time	title	presenter
14:30	The Many-body localization problem: Recent numerical progresses	NICOLAS LAFLORENCIE
15:10	Time crystals in clock models	RUSSOMANNO, Angelo
15:50	Coffee break	
16:20	. Floquet dynamics in many-body systems: from photo-induced superconductivity to shaking experiments with ultracold atoms	EUGENE DEMLER
17:00	Variational quantum simulation of interacting models using Pontryagin's minimum principle	ARMIN RAHMANI
19:30	Conference dinner
