# Conference on Shedding Light on the Dark Universe with Extremely Large Telescopes | (smr 3218)

## Monday 02 July 2018

### Dark Matter I - Leonardo Building - Budinich Lecture Hall (14:15-17:00)

- Conveners: Tommaso Treu

time	title	presenter
14:15	Past, Present and Future of milli-lensing	SIMONA VEGETTI
14:55	Dark Matter Lost and Found	ADRIANO AGNELLO
15:15	The bimodal formation time distribution of infall dark matter halos and its effect on galaxies	JINGJING SHI
15:35	Coffee Break	
16:20	Constraints on the Dark Matter mass function with strong gravitational lensing	ELISA RITONDALE
16:40	Constraining the nature of dark matter with substructure lensing: predictions from theory and simulations	GIULIA DESPALI
