Conference on Shedding Light on the Dark Universe with Extremely Large Telescopes | (smr 3218)

Wednesday 04 July 2018

Theory - Leonardo Building - Budinich Lecture Hall (09:15-14:15)

- Conveners: John McKean

time	title	presenter
09:15	Opportunities for dark matter searches with extremely large telescopes	STEFANO PROFUMO
09:55	Theoretical challenges to the LCDM paradigm	ARIANNA DI CINTIO
10:35	Coffee Break	
11:20	Simulating Galaxy Formation: Illustris, IllustrisTNG and beyond	MARK VOGELSBERGER
12:00	Constraining galaxy evolution scenarios from strong lens simulations with EAGLE	SAMPATH MUKHERJEE
12:20	The past of the Local Group in MOND	MICHAL BILEK
12:40	Lunch Break
