Workshop on Supersymmetric Localization and Holography: Black Hole Entropy and Wilson Loops | (smr 3227)

Friday 13 July 2018

Friday, 13 July 2018 - Leonardo Building - Budinich Lecture Hall (09:00-15:50)

time	title	presenter
09:00	Twisting with the flip: $N=2$ SYM on curved manifolds	MAXIM ZABZINE
09:50	Coffee Break	
10:20	D0-D8 brane partition functions	NICOLO' PIAZZALUNGA
11:20	Black hole entropy from large N twisted indices in five dimensions	ITAMAR YAAKOV
12:10	Lunch Break	
14:00	Fibering line operators on Seifert three-manifolds	CYRIL N. CLOSSET
15:00	Three Easy Pieces: Holography, Localization, and Spheres	NIKOLAY BOBEV
