Advanced School and Workshop on Correlations in Electron Systems – from Quantum Criticality to Topology | (smr 3232)

Tuesday 07 August 2018

Topology/Strong correlations - Budinich Lecture Hall (LB) (14:30-17:40)

time	title	presenter
14:30	Majorana quantization and half integer thermal Hall conductance in a Kitaev spin liquid	Y. MATSUDA
15:10	Chiral spin liquids as melted non-coplanar spin crystals	A. PARAMEKANTI
15:50	Coffee break	
16:20	Diagrammatic Monte Carlo for real-time propagation	E. GULL
17:00	Orbital-selective Mott physics and the phase diagram of iron-based superconductors	M. CAPONE
