Advanced School and Workshop on Correlations in Electron Systems – from Quantum Criticality to Topology | (smr 3232)

Wednesday 08 August 2018

Fe-based Superconductors II: Optics - Budinich Lecture Hall (LB) (09:10-11:00)

time	title	presenter
09:10	Nematicity and superconductivity in multi-band Fe-based superconductors as seen by light scattering spectroscopy	G. BLUMBERG
09:50	Nematic fluctuations and criticality in unconventional superconductors	Y. GALLAIS
10:30	Coffee break
