19th International Workshop on Computational Physics and Material Science: Total Energy and Force Methods | (smr 3266)

Thursday 10 January 2019

Session 11 - Novel Electronic Structure Methods for Ground and Excited States - Budinich **Lecture Hall (LB) (14:55-17:00)**

time	title	presenter
14:55	Chairperson: Jeffrey NEATON	
15:00	Low-scaling GW calculations using Gaussian basis functions	WILHELM, Jan
15:30	Optical and core spectroscopy from many-body perturbation theory	COCCHI, Caterina
16:00	Optoelectronic properties at finite temperature	MONSERRAT SANCHEZ, Bartomeu
16:30	Coffee break
