

2nd ICTP Summer School on Theory, Mechanisms and Hierarchical  
Modelling of Climate Dynamics: Convective Organization and Climate  
Sensitivity | (smr 3304)

Contribution ID : 71

Type : not specified

**Can simple models from statistical mechanics shed  
light into self-aggregation, or are detailed fluid  
dynamics including boundary-layer structures crucial?  
- fluid dynamics**

*Friday, 12 July 2019 09:45 (0:30)*

**Content**

**Summary**

**Presenter(s) :** SHERWOOD, Steve (UNSW, Australia)

**Session Classification :** notitle
