

2nd ICTP Summer School on Theory, Mechanisms and Hierarchical  
Modelling of Climate Dynamics: Convective Organization and Climate  
Sensitivity | (smr 3304)

Contribution ID : 40

Type : not specified

# Cloud-radiative feedback are key, and especially shallow convection-radiation is important for aggregation

*Wednesday, 10 July 2019 09:15 (0:30)*

## Content

## Summary

**Presenter(s) :** MULLER, Caroline (LMD, France)

**Session Classification :** Alternative mechanisms for aggregation
