

# The Application of Neutron Activation Analysis to Forensic Sciences

*Tuesday, 21 May 2019 12:00 (1:00)*

## Content

The talk starts with a short introduction of applications of research reactors. After this, the main part of the presentation focuses on outlining the forensic applications for which NAA is well suited. The presentation will: - Provide contextual history of NAA in forensic sciences - Highlight the forensic applications for which NAA has most been used - Provide case studies of NAA in forensic sciences - Discuss the threats to NAA as a viable technique in forensic sciences - Indicate areas where NAA can currently contribute

## Summary

**Presenter(s) :** BARRADAS, Nuno P. (IAEA, Austria)

**Session Classification :** notitle
