# International Space Weather Initiative Workshop | (smr 3292)

## Wednesday 22 May 2019

### **Session 5B: Solar Physics Continued - ex-SISSA Main Auditorium (13:30-17:30)**

- Conveners: Dr. Makela, Pertti

time	title	presenter
13:30	Characterization of CMEs from the associated High Frequency type II Solar Radio Bursts	JEAN UWAMAHORO
13:50	CME and ICME Rates over 4 Solar Cycles	DAVID WEBB
14:10	Space Weather activities in Argentina' and 'The role of Interplanetary Coronal Mass Ejections on Sun-Earth coupling'	SERGIO DASSO
14:30	Preliminary observational investigation of the variability of nighttime equatorial thermospheric winds over Nigeria, West Africa	A. BABATUNDE RABIU
14:50	Questions and Discussion	
15:30	Coffee break	
16:00	Poster Session
