

Dynamical Monotones and Information Back-flow

Wednesday, 31 July 2019 14:00 (0:40)

Content

I will present a simple qubit non-Markovian dynamics whose P-divisibility does not extend to the tensor product of the dynamics with itself and discuss it from the point of view of the back-flow of information.

Summary

Presenter(s) : FABIO BENATTI (Department of Physics, University of Trieste)
