

Salam Distinguished Lecture Series 2020: Professor Marc Mézard

27–29 January 2020
Budinich Lecture Hall
ICTP

27 Jan, 16:30

Lecture 1
Artificial
Intelligence:
success, limits,
myths & threats

28 Jan, 16:30

Lecture 2
The spin glass
cornucopia

29 Jan, 11:00

Lecture 3
Statistical physics
of inference
and machine
learning

Professor Marc Mézard
Director of l'École normale
supérieure, Paris, France.

Professor Marc Mézard is a theoretical physicist whose main field of research is the statistical physics of disordered systems and its use in various branches of science, including biology, economics and finance, information theory, computer science, statistics, and signal processing. In recent years his research has focused on information processing in neural networks.
