# Emergent Hydrodynamics in Integrable Quantum Many-body Systems and Beyond | (smr 3514)

## Tuesday 16 June 2020

### Session IV: Beyond Integrability - (17:00-19:00)

| time  | title                                                    | presenter             |
|-------|----------------------------------------------------------|-----------------------|
| 17:00 | Hydrodynamics of inhomogeneous locally integrable models | ALVISE BASTIANELLO    |
| 17:30 | From generalized to conventional hydrodynamics           | SARANG GOPALAKRISHNAN |
| 18:00 | Discussion rooms                                         |                       |
