openscience@unesco.org

This online meeting is part of a series of regional consultations aimed at building a global consensus on open science. It will provide a platform to provide inputs from Western European and North American scientists, science funders, policy makers, innovators, publishers and other concerned stakeholders to the UNESCO Recommendation on Open Science.

Lessons learnt and experiences of the regional stakeholders on the development and implementation of Open Science strategies, policies and other initiatives, will be shared taking cognizance of the key challenges and required infrastructures for Open Science with suggestions on how to overcome them, as well as areas for international collaboration and networking to advance Open Science globally.

Agenda:

- Introduction to the UNESCO Recommendation on Open Science
- Panel discussion on Open Science in Western Europe and North America: Key Challenges and Opportunities
- Open discussion on Key messages from Western Europe and North America for the UNESCO Recommendation on Open Science

How to apply:
