

Independent group work towards the goals set for the day

Friday, 25 June 2021 17:00 (1:00)

Content

Participants schedule their study and breaks to fit with their time zone. There is no requirement to stick to this schedule of study so long as participants study sufficiently to produce required deliverables and join troubleshooting sessions if problems arise. Participants in East Asia can end their day at a reasonable time and resume in the morning when there will be a troubleshooting session.

Participants independently

Gather.town and Matrix available for talking to other participants

Summary

Session Classification : Track 2. OSeMOSYS and FLEXTOOL
