# Trieste Algebraic Geometry Summer School (TAGSS) 2021 - Hyperkähler and Prym varieties: classical and new results | (smr 3609)

## Thursday 22 July 2021

- Online (14:00-19:10)

| time  | title                                                                             | presenter     |
|-------|-----------------------------------------------------------------------------------|---------------|
| 14:00 | Degree computation of the Prym map of triple cyclic coverings over genus 4 curves | ANGELA ORTEGA |
| 14:45 | Break                                                                             |               |
| 14:50 | Degree computation of the Prym map of triple cyclic coverings over genus 4 curves | ANGELA ORTEGA |
| 15:35 | Gather Town Break                                                                 |               |
| 16:05 | Hyperkähler manifolds, an introduction IV                                         | ELHAM IZADI   |
| 16:50 | Break                                                                             |               |
| 16:55 | Hyperkähler manifolds, an introduction IV                                         | ELHAM IZADI   |
| 17:40 | Gather Town Break                                                                 |               |
| 18:10 | Prof. Izadi's exercise session                                                    |               |
