FAIR data are the building blocks of the EOSC, European Open Science Cloud, which is the virtual hub to share data and enable innovation in Europe. Making your data FAIR streamlines your future research workflow, boosts interoperability, and in the end saves time and money. This webinar will give you a practical, introductory overview to start FAIRifying your research outputs.

A virtual seminar co-organized by
Science, Technology and Innovation Unit
& the Marie Curie Library

The Abdus Salam
International Centre
for Theoretical Physics
