Strongly Correlated Matter: from Quantum Criticality to Flat Bands | (smr 3732)

Tuesday 30 August 2022

Morning session - Kastler Lecture Hall (AGH) (09:00-14:00)

Chair: Yong Baek KIM (University of Toronto)

time	title	presenter
09:00	Correlation, Superconductivity and Topology in Magical Flat Bands	ALI YAZDANI
09:45	Charge Fluctuations, Phonons, and Superconductivity in Twisted and Un-twisted Graphene Stacks	FRANCISCO GUINEA
10:30	Coffee break and Group photo	
11:00	Topological Superconductivity in Moiré Transition Metal Dichalcogenides	LAURA CLASSEN
11:45	Q&A	
12:00	Lunch break
