Medical Imaging Physics and Technology - Principles of Optimisation, Safety, and Education Development for Building Capacity in Developing Countries | (smr 3734)

Wednesday 07 September 2022

notitle - Kastler Lecture Hall (AGH) (09:00-16:50)

time	title	presenter
09:00	Digital Radiography image parameters – MTF, SNR, NPS, NEQ, DQE	SLAVIK TABAKOV
09:50	Computed Radiography detectors 1	SLAVIK TABAKOV
10:40	Coffee break	
11:00	Computed Radiography detectors 2	SLAVIK TABAKOV
11:50	Occupational Radiation Protection	MAGDALENA STOEVA
12:40	Lunch	
14:00	Practical implementation of QA/QC programs	MAGDALENA STOEVA
14:50	Coffee break	
15:10	Digital Image Structure, Characteristics, and Effects of Visibility and Clinical Applications	PERRY SPRAWLS
16:00	Medical Imaging Procedure Optimization and the Expanding Role of Medical Physicists	PERRY SPRAWLS
