

Operationalizing UNESCO Recommendation
on Open Science through EOSC – RELIANCE

Digital Assets for Sustainable Development

Drawing Insights from Scientists'
Practical Experience

28 February 2022 at 15:00

**A virtual seminar
co-organized by
Science, Technology,
and Innovation Unit
& the ICTP Library**

International recommendations, general principles, and policy documents on open science are highly inspirational, building general consensus and ideational policy frameworks. However, their operationalization requires practical and working tools for citizens, scientists and researchers. This is the case for RELIANCE digital assets, a suite of innovative and interconnected services integrated into EOSC-HUB and used by the EOSC scientific communities to support thematic and multidisciplinary research in Earth Science and beyond.
