

SECOND ICTP CONFERENCE ON DETECTION AND MODELING OF
REGIONAL CLIMATE CHANGE | (smr 1428)

Contribution ID : 50

Type : **not specified**

The concept of downscaling and the rationale of large-scale control in regional climate modeling

Wednesday, 2 October 2002 15:50 (0:30)

Content

Summary

Primary author(s) : H. VON STORCH (GKSS Forschungszentrum Geesthacht, Germany)

Presenter(s) : H. VON STORCH (GKSS Forschungszentrum Geesthacht, Germany)

Session Classification : The concept of downscaling and the rationale of large-scale control in regional climate modeling
