SECOND ICTP CONFERENCE ON DETECTION AND MODELING OF REGIONAL CLIMATE CHANGE | (smr 1428)

Contribution ID : **51** Type : **not specified**

Estimates of local temperature change by statistical downscaling: Sensitivity to the method and selection of predictors

Wednesday, 2 October 2002 16:20 (0:15)

Content

Summary

Primary author(s): R. HUTH (Institute of Atmospheric Physics, Prague, Czech Republic)

Presenter(s): R. HUTH (Institute of Atmospheric Physics, Prague, Czech Republic)

Session Classification: Estimates of local temperature change by statistical downscaling: Sensitivity

to the method and selection of predictors
