

## ORGANIZING COMMITTEE

Abdus Salam (ICTP)

Luciano Bertocchi (University of Trieste and ICTP)

Giuseppe Furlan (University of Trieste and ICTP)

## FOREWORD

One of the challenges for any Organizing Committee is to publish the Proceedings in a time and in a form compatible with usefulness. Taking this point into consideration, both the contributors and participants in the Topical Meeting on Electromagnetic and Weak Interactions in Nuclei felt that some type of report should be available as soon as possible after the meeting. For this reason, although the following might not have the most polished of formats, it should be considered solely for its value to those who took part. We hope that, in spite of this, participants will benefit from the report.

We take this opportunity to thank C. Ciofi degli Atti (Rome) and B. Bosco (Florence) for their warm collaboration. A financial contribution from the Istituto Nazionale di Fisica Nucleare, Italy, is also gratefully acknowledged.

The Organizing Committee
