ICTP-INFM Conference on "New Frontiers in Nano-Biotechnology: Monitoring Protein Function with Single-Protein Resolution" | (smr 1509)

Contribution ID : 17

Type : not specified

Study of protein interaction and nucleo-cytoplasmic trafficking using FRET and FRAP in live cells

Wednesday, 16 July 2003 11:45 (0:45)

Content

Summary

Primary author(s) : GEORGE N. PAVLAKIS

Presenter(s) : GEORGE N. PAVLAKIS

Session Classification : Study of protein interaction and nucleo-cytoplasmic trafficking using FRET and FRAP in live cells
