

Are Interaction Effects Responsible for Temperature and Magnetic Field Dependant Conductivity in Si-MOSFETs?

Tuesday, 2 September 2003 16:30 (0:40)

Content

Summary

Primary author(s) : V. PUDALOV (Rutgers, The State University of New Jersey, Piscataway, U.S.A.)

Presenter(s) : V. PUDALOV (Rutgers, The State University of New Jersey, Piscataway, U.S.A.)

Session Classification : Are Interaction Effects Responsible for Temperature and Magnetic Field Dependant Conductivity in Si-MOSFETs?
