

Study on the Mechanism of Proton Conductivity in Zero-Dimensional Hydrogen-Bonded Crystals $M_3H(XO_4)_2$ with $M=K, Rb, Cs$ and $X=S, Se$

Wednesday, 3 September 2003 11:30 (0:40)

Content

Summary

Primary author(s) : H. KAMIMURA (Tokyo University of Science, Japan)

Presenter(s) : H. KAMIMURA (Tokyo University of Science, Japan)

Session Classification : Study on the Mechanism of Proton Conductivity in Zero-Dimensional Hydrogen-Bonded Crystals $M_3H(XO_4)_2$ with $M=K, Rb, Cs$ and $X=S, Se$
