## Study on the Mechanism of Proton Conductivity in Zero-Dimensional Hydrogen-Bonded Crystals M3H(XO4)2 with M=K, Rb, Cs and X=S, Se

Wednesday, 3 September 2003 11:30 (0:40)

Content

**Summary** 

Presenter(s): H. KAMIMURA (Tokyo University of Science, Japan)

 $\textbf{Session Classification}: \quad \textbf{Study on the Mechanism of Proton Conductivity in Zero-Dimensional}$ 

Hydrogen-Bonded Crystals M3H(XO4)2 with M=K, Rb, Cs and X=S, Se
