

Seventh Trieste Conference on Chemical Evolution and the Origin of Life:
Life in the Universe: From the Miller Experiment to the Search for Life on
other Worlds | (smr 1516)

Contribution ID : 8

Type : not specified

**On the apparently consistent L-biased enantiomeric
excesses in meteoritic extracts as representing a
form of attenuated forensic stereochemical evidence
of chiral information derived from terrestr...**

Monday, 15 September 2003 16:30 (0:15)

Content

Summary

Primary author(s) : SIMON NICHOLAS PLATTS (Carnegie Institution of Washington, USA & Rensselaer Polytechnic Institute, USA)

Presenter(s) : SIMON NICHOLAS PLATTS (Carnegie Institution of Washington, USA & Rensselaer Polytechnic Institute, USA)

Session Classification : On the apparently consistent L-biased enantiomeric excesses in meteoritic extracts as representing a form of attenuated forensic stereochemical evidence of chiral information derived from terrestr...
