

Seventh Trieste Conference on Chemical Evolution and the Origin of Life:
Life in the Universe: From the Miller Experiment to the Search for Life on
other Worlds | (smr 1516)

Contribution ID : 10

Type : not specified

Phase transition beats in natural optical activity and parity violation of alanine enantiomers

Monday, 15 September 2003 17:00 (0:15)

Content

Summary

Primary author(s) : WANG WENQING (Peking University, China)

Presenter(s) : WANG WENQING (Peking University, China)

Session Classification : Phase transition beats in natural optical activity and parity violation of alanine enantiomers
